

Technical Requirements For Sir Ranulph Fiennes

It is absolutely vital for the success of the presentation that these requests are adhered to in every detail.

If required Sir Ranulph can show visual images within his presentation which are supplied on a memory stick (Powerpoint) or via email - this can be sent in advance. The memory stick should be organised so the images can be advanced with a single click from the lectern.

Please provide;

A laptop, projection and screen.

Lapel or neck microphone A (laser) pointer

A solid lectern

Ran insists that no photos are taken during his lecture, so as not to distract him. During the Q&A session following the lecture and thereafter he welcomes photographs and autographs.

Book Signing

As the author of 24 very good books, Ran is happy to sign copies of his books, which include his autobiography. Please inform us if you would like to arrange in advance to have copies of his books on site which are priced at cost at £20 per copy.

It is also possible to arrange for copies to be signed and personalised post-conference and delivered by request.

Additional information or assistance with Sir Ranulph's speaking, contact;
