"You just gave a 12 min talk for Louis Vuitton and I've never felt so inspired before ... so just wanted to say THANK YOU"

[Nina Morton, Global Marketing Manager, Particle Measuring Systems, Lisbon, Jan 2018](#)

Hi Jonathan, "We chose Ricardo specifically because we did not want a typical motivational speaker. I would say Ricardo has an interesting personal story and is very much about working to achieve your dreams. With this in mind, many of our employees found him very inspirational. I thought there was something for everyone in his talk and would say overall we were very happy. But again, we choose him because he isn't typical. We would recommend him to sister companies, but explain that he isn't typical. If someone wants a "rah rah" speaker – they shouldn't choose Ricardo."

[Lionel Constantin, Legal Director, JT International, Geneva, Switzerland, March 2017](#)

"It was an exceptional experience and a privilege to be drawn into the world of Ricardo Diniz. Ricardo openly shared his accomplishments and his failures but most of all his affirmative approach to life's challenges with our team. He was engaging, funny, open and thought provoking. The resulting impact on the JTI WWDF team was an outpouring of discussion, self-reflection and a sense of motivation to readdress both personal and professional challenges with a new perspective."
